To be signed by the owner of the stud and the owner(s) of the bitch, or their agents.

The stud fee is \$500.00 and is due before the mating. It is non-refundable, and it guarantees valid services only. Potency, and fertility, of the stud are assured but the owner of the male has no control over the receptivity, or fertility, of the bitch. One colored puppy shall constitute a litter.

Should the bitch not conceive, nor bear live, registerable puppies, the stud dog owner shall have the same bitch bred by the same male (if available) at her next season.

A recent, negative brucellosis test is required of the bitch and shall be provided for the dog.

If both parties agree that one, or more, puppies shall satisfy the stud fee, they shall be chosen, by the stud dog's owner, before the litter is seven weeks old.

The stud dog owner is a member of the American Boxer Club, Inc., and, as such, will not participate in full registration (with the American Kennel Club Inc.) of Boxer puppies which are more than one third white. The dam's owner(s) are asked not to describe such puppies as eligible for full A.K.C. registration, nor to describe them as rare. They may be afforded Limited Registration upon the breeder's request to the AKC. The stud dog owner will sign the A.K.C. litter registration application upon reliable proof that the puppies are registerable.

Especial terms.
